

WHAT IS AUSBILDUNG BIS 18?

Ausbildung bis 18 (education until 18) is an initiative of the Austrian Federal Government. It is aimed at ensuring that all young people in Austria complete a form of education beyond compulsory schooling by their 18th birthday. Ausbildung bis 18 is based on the Austrian Compulsory Education and Training Act (APfIG).

WHY AUSBILDUNG BIS 18?

- All young people should have a complete education to enable them to organise the rest of their lives independently and play an active role in society.
- Young people that complete education or training find a job more easily, improve their chances of earning more and live healthier and longer lives.

WHICH AUSBILDUNG BIS 18?

There are a range of different education options for young people:

- **School attendance** of an academic secondary school (AHS), a vocational secondary or high school (e. g.: HAS, HAK, HTL) or a school for agriculture and forestry
- **Apprenticeship** in one or more of the over 200 apprentice careers on offer, as an apprentice in a business or in a workshop (school and training-based apprenticeship with the Austrian Public Employment Service – AMS)
- **Training in healthcare and social professions**
- **Other training and education offers**, such as preparation courses training
